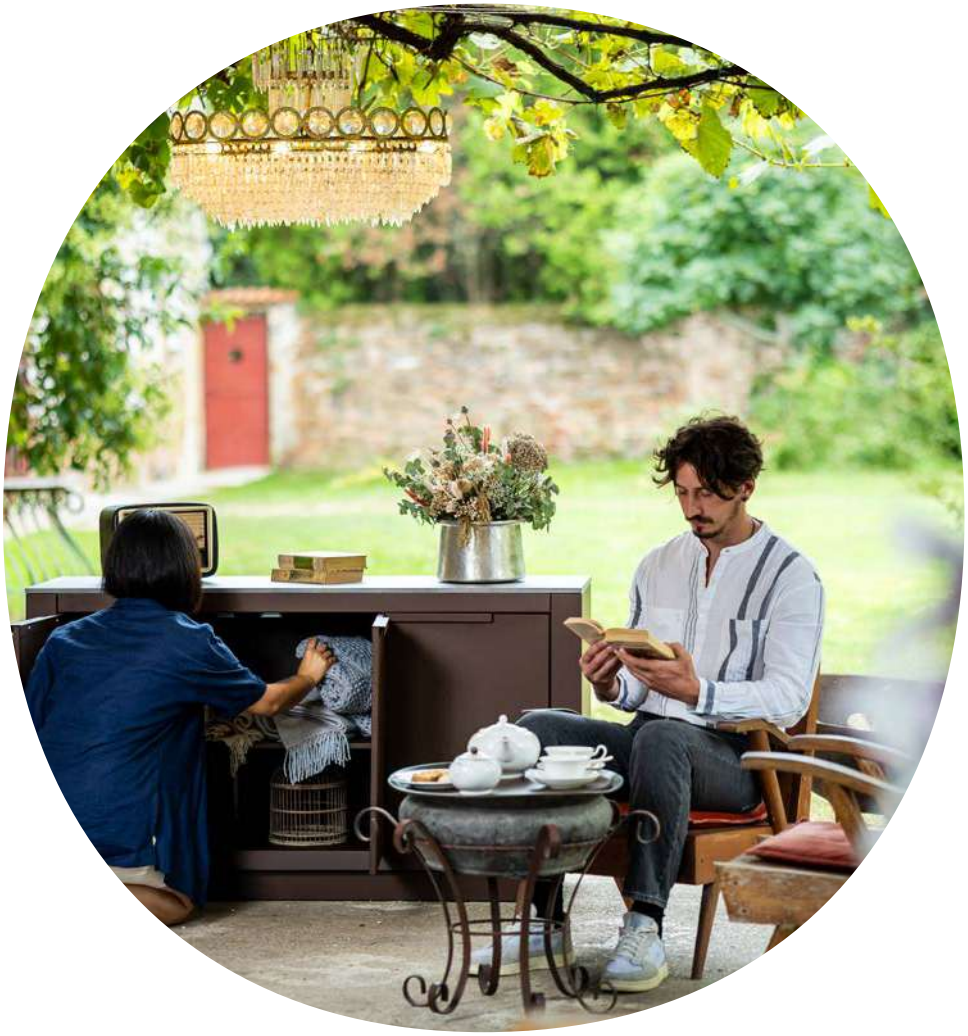
SCENARIOOUTDOOR
live it out

PRICE LIST | 26

WHAT IS YOUR **OUTDOOR SCENARIO**?

_ A Sunrise at the **Cabin** _ An Echo in the **Courtyard** _ A Sunset at the **Farmhouse**_ A Secret in the **Orchard**_ A Breath in the **Villa**_ A Toast on the **Terrace** _ A Moment at **Home**



EVERY STORY HAS ITS OWN SCENARIO OUTDOOR

There are those who love the silence of the morning,
and those who wait for the blue hour of the evening.
Those who experience the sea as a brief escape,
and those who call it home.

Those who find shelter under a pergola,
those who cook for many,
and those who cook just for themselves.
Every gesture, every habit, every dream that takes shape outdoors
has a setting, a scene, a Scenario.

Scenario Outdoor is our vision:
a collection of essential and modular objects,
designed to adapt – or to stand out –
in every human landscape: urban terraces, Mediterranean gardens,
city rooftops, quiet countryside.

Because in a world that rushes forward,
we choose to slow down.
To build your ScenarioOutdoor,
meant to last over time.
To inhabit, to live.

PRIMORA COLLECTION

Primora, our first outdoor collection,
whatever your scenario may be.

Essential in form,
impeccable in substance

MATERIOTECA

SOLID STRUCTURE,
DURABLE FINISHES

Made of Magnelis® steel, Primora outdoor kitchens and furniture guarantee high mechanical resistance and superior protection against corrosion, even in marine or highly humid environments. This advanced material ensures long-term performance, superior to traditional galvanised steels.

The surfaces are finished with epoxy powder coating for outdoor use, a specific treatment that offers high colour stability, scratch protection and resistance to outdoor conditions". A professional finish, chosen to ensure durability, aesthetic integrity and minimal maintenance, even in exposed and intensive outdoor environments.

ACT ONE
KITCHEN

PRIMORA IS THE FIRST LIGHT.

A simple gesture that transforms outdoor space into a vibrant stage.
It is a kitchen, but also a sign, a discreet architecture that accompanies your everyday life outdoors.

Compact, essential, surprising.
It knows how to stay in the background or take center stage.
It knows how to blend in or stand out.
It is born to adapt, to welcome, to endure.

It designs the space without invading it.
It embraces gestures, rituals, presence.

ACT TWO
OUTDOOR FURNITURE

An outdoor architecture system that stems from
a clear vision: to create seamless continuity
between interior and exterior.
Each element – from the compact kitchen to the sideboard,
from the outdoor cabinet to future furnishings – is designed
to blend naturally
into the landscape and meet a real need for organization,
aesthetics and durability.

Pure lines, technical materials, measured volumes.
Primora is designed for those who want to live outdoors with
the same care and consistency as indoors.
An essential gesture that transforms terraces,
gardens and courtyards into places to be lived in with
simplicity.

SIDEBOARD 100

100-cm sideboard with a Compact Surface top coordinated with the Primora kitchen, designed to organize space with discretion and continuity.

1000 x 450 x 800 mm 38 kg

COOKING

HEAT AS MATERIAL.
STEEL AS THE PERFECT SURFACE

Cooking outdoors is a primordial gesture that Scenario Outdoor transforms into subtle engineering.
Each cooking system, whether electric, gas or wood-fired, stems from the same research into matter, into the way heat passes through, shapes and restores purity.

At the heart of this vision lies food-grade AISI 304 stainless steel, chosen for its durability, its thermal stability, and its pure neutrality.

On electric and gas cooking plates, the material reaches its finest expression thanks to the MatterCore thermal treatment: an exclusive process that compacts the internal structure of the steel, reducing its micro-porosity and ensuring a dense, smooth, flavor-neutral surface. Heat is distributed evenly; flavors remain distinct and intact. You can grill meat, vegetables, or fruit on the same surface and rediscover the original purity of flavor every time.

Behind every gesture, the same idea: a controlled, uniform, pure heat. Technology that recedes, letting only the material and taste speak.

ACT ONE
CARTS

SCENARIO IN MOTION.
For those who want to bring the kitchen where the light is born, or where the evening quietly arrives.

They move lightly, yet carry the same essence as Primora.
They are kitchen, storage, and the freedom to move the gesture wherever it's needed.

Closed lines, essential proportions, and the solidity of steel make them perfect in every season.
On their own, they take the stage.
Next to a sideboard, they become a compact cooking scenario, able to redefine even the smallest space with balance and harmony.

CART WITH ELECTRIC TEPPAN GRIDDLE SERIES 60

Compact griddle model 60 in food-grade AISI 304 stainless steel, ideal for 4–5 people. Closed cart in powder-coated Magnelis®, durable and discreet, designed for precise cooking even in small spaces.

ACT TWO
TABLETOP

FOR THOSE WHO CHOOSE THE FREEDOM OF MOVEMENT, WITHOUT COMPROMISING ON PRECISION.

Scenario Outdoor griddles rest on any surface and become part of it.

They don't take up space — they define it.
They outline terraces, countertops, and walls, turning every support into an essential kitchen.

Precise, essential, free to adapt to any setting, they turn heat into gesture and matter into experience.

ACT THREE
BUILT-IN

CONTINUOUS LINE.
PERFECT MATERIAL.

The built-in Scenario Outdoor griddles blend seamlessly with the countertop, drawing a sense of continuity.

They don't break the space – they extend it.
The surface becomes one, cooking merges with the design, and matter turns into architecture.

Essential, proportioned, perfect in every detail, they transform precision into form, and form into harmony.
